(7.) The committee find, especially from the testimony of Captain Montgomery, supported by numerous facts stated | by other witnesses, that the military organization extended to most of the counties in the State where the Republicans were in the majority; that it embraced a proportion not much less than one-half of all the white voters, and that in the respective counties the men could be summoned by signals given by firing cannon or anvils, and that probably in less than a week the entire force of the State could be brought out under arms.

Similar preceedings occurred in

(10.) The committee find that the candidates, in some instances, were compelled, by persecution or through fear of from the ticket, and even to unite themselves ostensibly with the Democratic party. J. W. Caradine, of Clay County, was compelled to withdraw his name from the Republican ticket, and to make speeches in behalf of the Democratic candidate and policy. An extract from his testimony is herewith given as follows:

"They told me that I would have to go that they never could get out of them for the next ten years to come with the speeches I had made, and that I had to go around and make some speeches in

Stata Treasurer. Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Romittent Fever, Dumb Ague Periodical or Billous Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

This is a compound remedy, prepared with scientific skill from vegetable ingredients, which rarely falls to cure the severest cases of Chills and Fever and the concomitant disorders. Such a remedy the necessities of the people in maln-rious districts demand. Its great superiority over any other medicine yet also vered for the cure of intermittents is, that it contains no quine or mineral, and those who take it are free from danger of quinism or any injurious effects, and are as healthy after using it as before. It has been extensively employed during the last thirty years in the treatment of these distressing disorders, and so unvarying has been its success that it has gained the reputation of being infal-lible. It can, therefore, be safely recommended as a sure remedy and specific for the Fever and Ague of the West, and the Chills and Fever of the South. It counteracts the miasurate poison in the blood, and frees the system from its influence, so that fever and ague, shakes or chills,

once broken up by it, do not return until the disease is again contracted. The great variety of disorders which arise from the irritation of this poison, such as Neuralgia, Rheumatism, Gout, Beadache, Elindness, Toothache, Earache, Cafairh, Asthma, Palpitation, Spienie Affections, Hysterics, Pain in the Bowels, Colic, Paralysis, and derange-of the Stomach, all of which become intermittent or persolical, have no speedier remedy than Aven's Ague Cone, which cures them all alike, and protects the system from future attacks. As a preventive, it is of immense service in these commonnities where Fever and Ague prevails, as it stays the development of the disease if taken on the first approach of the premonitory symptoms. Travellers and temporary residents are thus enabled to defy these disorders, and few will ever suffer if they avail themselves of the
